DETAILED ACTION

Claims 1-4, 7-17, 20 and 21 are currently pending in the instant application, appear allowable over the prior art of record and have been renumbered as claims 1-17.

Response to Amendment and Arguments

Applicants' amendment and arguments filed 27 June 2006 have been considered and entered into the instant application. Applicant's amendments overcome the 35 USC 112 1st paragraph rejection of claims 18, 19 and 22 and overcome the 35 USC 112 2nd rejection of claims 1-22. Applicants' arguments are considered persuasive in regards to the 35 USC 112 2nd paragraph rejection of claim 15 and the rejection is withdrawn. Applicants' amendment has also overcome the 35 USC 102 and 103 rejections of the claims.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance. This invention relates to products of the formula (I), the products electrochemical cell, supercapacitor, electrolyte composition and method for making. The novel and nonobvious aspect of this invention involves the combination of K⁺ and A⁻ wherein K⁺ is a cation as found in claim 1 and A⁻ is an anion [B(OR₇)_n(OR₈)_m(OR₉)_o(OR₁₀)_p]⁻. The closest prior art of record fails to teach or suggest applicants' instant compound K⁺A⁻.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
